

Barcode and Labelling software for Windows

# dBarcode .NET Components

## for most major barcodes types

- the ideal barcode image creators for your Windows .NET programs.

### *dBarcode .NET Components for Microsoft's Visual Studio .NET*

dBarcode .NET Components are fully managed code components that generate barcode images that may be displayed on forms or printed, copied or saved.

Each unit enables the developer to set the code, code type, size, font details, orientation, background and foreground colours, bearer bars, margin indicators, and to enable or disable text characters all from within their application.

Permits property dialog to be called to set all properties.

Automatically calculates and includes checksums for codes which use them, set bearers, margin indicators, etc.

- Create barcode images for Windows Forms applications
- Optionally include text, bearer bars, select colours, generate checksums
- Products available for EAN/UPC/UCC, 2 of 5, Interleaved 2/5, Code 39, Code 93, Code 128, Codabar, ISBN, ISSN, ISMN, Matrix 2 of 5, MSI, Plessey, PostNet, RM4SCC, Aztec, Datamatrix, PDF417, Maxicode and RSS barcodes

Each component generates a high resolution picture containing the barcode image and (where relevant) the code text. The picture may be displayed, printed, saved or passed to the clipboard by the user's code. Components also generate a pattern string for bars and spaces (for developers drawing their own barcodes).

Source code for demonstration applications in VB, C# and J# included.

Full HELP system.

Example (VB)

```
Dim g As Graphics = PictureBox1.CreateGraphics()  
Abcnet1.Caption="1234"  
PictureBox1.Image=Abcnet1.Barcode(g)  
g.Dispose()
```

Testware versions available at  
[WWW.DLSOFT.COM](http://WWW.DLSOFT.COM)

### *Products available*

**dBarcode .NET – Universal:** supports over 30 barcode types

**dBarcode .NET – Code 128:** supports Code 128, EAN/UCC 128, EAN-14 and SSCC

**dBarcode .NET – Code 39:** supports Code 39, Extended Code 39, Code 93 & Extended Code 93

**dBarcode .NET – EAN/UPC:** supports EAN-13, EAN-8, UPC-A, UPC-E (all with 2 & 5 digit supplementaries), EAN-14, ISBN, ISSN and ISMN.

**dBarcode .NET – ITF:** supports 2 of 5, Interleaved 2 of 5, Matrix 2 of 5, ITF-6 and ITF-14

**dBarcode .NET – Aztec:** for Aztec barcode

**dBarcode .NET – Datamatrix:** for Datamatrix barcodes

**dBarcode .NET – Maxicode:** for Maxicodes

**dBarcode .NET – PDF417:** supports PDF417 and MicroPDF barcodes

**dBarcode .NET – QR:** supports QR Code (Numeric, Alpha and Byte modes)

**dBarcode .NET – RSS:** for Reduced Space Symbology

### *System requirements:*

Microsoft Windows and the .NET Framework 1.1 is required on any PC calling the components.

Visual Studio .NET is required to develop applications using the components in VB, C# or J#
